### HEALTH ADVISORY – HEAT WAVE PRECAUTIONS

Dear Parents,

In view of the prevailing heat wave conditions, the school continues to prioritize the safety and well-being of all students. We would like to reassure you that the school campus is centrally air-conditioned, and all school buses are also air-conditioned, ensuring a comfortable and safe environment during transit and school hours.

For Students:

Students must carry sufficient drinking water and remain well-hydrated throughout the day.

- Inclusion of natural mineral supplements such as lemon water, coconut water, or ORS is recommended to maintain electrolyte balance.
- Light, breathable cotton uniforms are advisable.

School Measures:

- The centrally air-conditioned infrastructure ensures regulated temperature within the school premises.
- All outdoor sports and physical activities will be shifted indoors after 11:30 AM to avoid exposure to peak heat hours.
- Continuous monitoring is being done to ensure student comfort and safety.

For Parents:

- Parents/guardians coming to pick up students are advised to carry umbrellas, caps, or protective gear to avoid direct sun exposure.

Your cooperation in reinforcing these precautions will go a long way in ensuring the health and safety of our children during this period of extreme heat.

Warm regards,

Sonia Anil Verma  
Principal
